

I understand that the FCC is proposing to allow new LPFM stations to take priority over current FM translator service. I help support as do other members of the public a station which uses translators to provide national programming to local communities. the essential point is that beyond the national music K-LOVE also provides local public service information to the triangle/triad area of NC. This radio alternative does not need to be censored for the vulgarities that are allowed on other stations. our locality would be hurt if this station were to be displaced because it provides wonderful programming which includes information of interest for our specific local community. This is an example of "if it isn't broken, don't fix it."

please maintain the status quo and allow this station K-LOVE TO BE NATIONAL AND AT THE SAME TIME LOCAL. SINCERELY, JOHN WRIGHT
